Wine

Red wine ageing

Grape variety

100% Monastrell

Characteristics

From the vineyards located around our winery, 800 meters high, this wine is produced and aged in brand new barrels.

Wine making

This exquisite wine has been elaborated with selected Monastrell grapes for its quality and structure from old and low yield vineyards. The grapes are destemmed and the vinification process is carried out in stainless steel tanks for 15 days with a maximum temperature of 26º C. When the maceration-fermentation process is completed, the wine passes to American and French oak casks, where the wine is aged in maturing rooms with no light and sounds for 4 months.

Denomination of Origin

Jumilla

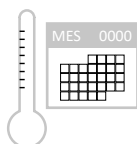

Alcohol	14,5% alc./vol.
pH	Informative 3-4
Total Acidity	Informative 5+0,5 g/l
Volatile Acidity	0,30-1 g/l
Total Sulphurous	<175 mg/l

Europallet	
Cases	6 bot.
Cases x layer	12
Layers	8
Bottles/pallet	576

Bottle	BD Cónica Ancienne 2 750 ml
Cork	Colmatado B Xenysel
Cap	Complejo Xenysel negra
Front label	Nydia 4 Meses
Back label	Nydia 4 Meses
Regulatory Board Strip	CRDO Jumilla

The optimal storage temperature is between 14 and 18ºC. It is essential that the cork stays humid, so it is necessary for it to be in contact with the wine, therefore the wine should be kept in horizontal position.

Best before: 2 years.
